**Over the past decade, ATMAG has built a reputation as a**

**trusted provider of industrial construction and maintenance services**

*for several prestigious clients across the Kingdom of Saudi Arabia.*

---

We specialize in trading and building construction, including fabrication, erection, and electromechanical works, ensuring safe operations and well-maintained facilities for the benefit of our esteemed customers.

# Saudi Vision 2030

## The Power of Saudi Vision 2030

Saudi Vision 2030 is a transformative blueprint that paves the way for a prosperous future. With a strong emphasis on economic diversification, sustainable development, and infrastructure advancement, the Vision aims to elevate Saudi Arabia to new heights of global prominence.

At Arab Tech, we are proud contributors to this monumental journey through our expertise in civil works and MEP (Mechanical, Electrical, and Plumbing) services. Our mission is to build resilient infrastructure, implement sustainable solutions, and empower the local workforce, aligning with the core values of Vision 2030.

By integrating cutting-edge technology and promoting inclusivity, our commitment to Saudi Vision 2030 remains steadfast. Together, we are shaping a nation that stands tall on the global stage, creating a lasting impact for generations to come.

Join us on this path of progress as we harness the power of Saudi Vision 2030 to build a brighter future for all.

# Our Expertise

## CIVIL WORKS EXECUTION

ATMAG has earned a reputation for excellence through its dedicated efforts on numerous significant construction projects.

## CONSTRUCTION MANAGEMENT

ATMAG provides comprehensive, multi-disciplinary construction management services to our clients.

## PROJECT MANAGEMENT

ATMAG offers full project management services for medium to large-scale projects, serving as the prime contractor.

## PROBLEM SOLVER

The ATMAG team operates with a strong problem solving approach, ensuring the successful fulfillment of critical project requirements.

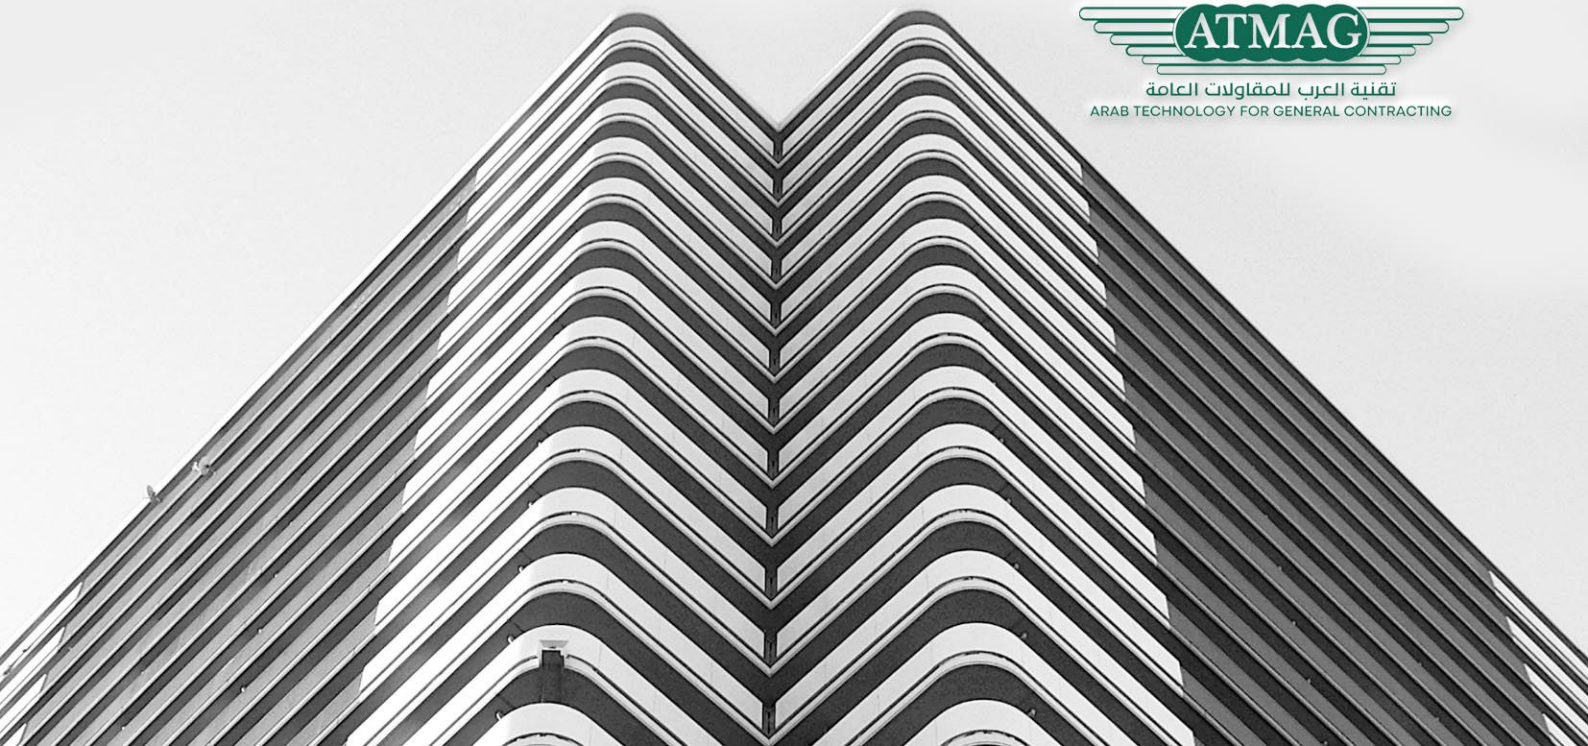

# Our Journey

Since its founding in 2007 ATMAG has pursued the mission of becoming a prominent company in the fields of general contracting, trading, and building construction, including fabrication, steel structures, erection, and electromechanical works. **Our focus is on ensuring safe operations and maintaining high-quality facilities for the benefit of our esteemed customers.**

ATMAG has earned a strong reputation for **delivering construction management services, as well as for the maintenance and construction of industrial and commercial buildings for both public and private sector clients.** The trust of our clients, our reliable performance, and commitment to quality have driven us to expand our engineering services across construction projects in the industrial sector.

ATMAG has extensive experience in handling the complete fabrication and erection of complex steel structures. Our engineering and fabrication division is well-equipped with state-of-the-art machinery and equipment, enabling our workforce to execute tasks with precision and maximum efficiency.

Our systematic approach to problem-solving has translated into increased productivity and optimized project costs for our customers. With experience in all aspects of site operation and management, we work closely with our clients to meet project requirements at all times. We remain committed to delivering the highest quality in the most timely and efficient manner possible.

# Our Core Team

**Hussain Al-Dubais**  
*Sr. GM*

*Ever since our establishment, we have strived to contribute to the prosperity of our clients and society from a global perspective.*

Our business is divided into four key areas: industrial building construction, commercial building construction, steel structures, and equipment installation and maintenance services for industrial facilities. To further enhance these areas, we are dedicated to providing tailored services to meet the specific needs of our clients throughout KSA, leveraging the technologies and expertise we have acquired through our experience and achievements.

Adapting to a changing environment and diversifying needs—Today, uncertainty in the global economy is widespread. By viewing changes in our environment as opportunities, we remain steadfast in our commitment to developing advanced technologies and formulating innovative solutions unique to our company.

In addition to fulfilling our social responsibilities, our employees are fully committed to utilizing all corporate resources to provide professional services that meet our clients' needs. With that in mind, we ask for your continued support and patronage as we work to serve all our clients effectively.

Thank you.

**Dr. & Eng.  
Haider  
Ali Yahya Almaskeen**  
*CEO*

At ATMAG, our journey since 2007 has been defined by an unwavering commitment to excellence, innovation, and customer satisfaction. Over the past <sup>15+</sup> years, we have earned a reputation as a trusted provider of industrial construction, building maintenance, and general contracting services across Saudi Arabia.

Our dedication to precision engineering, cutting-edge technology, and rigorous safety standards has enabled us to deliver transformative solutions that exceed expectations. From large-scale industrial projects to customized maintenance services, every endeavor reflects our core values of quality, trust, and sustainability.

At ATMAG, we believe in building more than just structures—we build relationships, enrich communities, and contribute to the growth of industries that drive our economy forward. By investing in our talented team and leveraging advanced technologies, we continue to innovate and adapt in an ever-evolving landscape.

As we move forward, our vision remains steadfast: to lead the fields of construction management, contracting, and maintenance services in Saudi Arabia and beyond. Together with our clients and partners, we are shaping the future—one project at a time.

Thank you for being part of our journey.

# Our Core Team

At ATMAG, my role as Projects Manager revolves around ensuring every project is delivered with precision, quality, and on time, reflecting our unwavering commitment to excellence and client satisfaction.

**Arif Hussain**  
Projects Manager

As the Construction Manager at ATMAG, I oversee every phase of our projects, ensuring seamless execution, timely delivery, and adherence to the highest quality standards.

**Izhar Ahmed**  
Construction Manager

As the Quality Assurance Manager at ATMAG, I ensure that every project meets the highest industry standards, delivering safety, reliability, and excellence to our clients.

**Mohammed Babar**  
Electrical Works Manager

As the Procurement Manager at ATMAG, I ensure the timely acquisition of high-quality materials and services, supporting the seamless execution of our projects while optimizing costs.

**Naqshad Khan**  
Procurement Manager

As a Projects Control Engineer at ATMAG, I oversee the planning, scheduling, and monitoring of projects, ensuring they are delivered on time, within scope, and to the highest standards of quality.

**Shoaib Ahmed**  
Projects Control Engineer

As an Accounts Officer at ATMAG, I manage financial operations with precision and transparency, ensuring the company's fiscal health and compliance with financial regulations.

**Mohammed Adeel**  
Accounts Officer

# Our Vision

**ATMAG vision** is to become an acknowledged leader in the fields of Construction management, General Contracting, Maintenance services in the Kingdom of Saudi Arabia and beyond through the diversity & excellence of our people and our commitment to continuous improvement and development.

**ATMAG mission** is to participate and contribute to the development, enrichment and service of the region and its communities through delivery of valued solution and satisfaction to our esteemed and honorable customers by performance excellence in general contracting, construction management and maintenance services.

# QA/QC Policy

ATMAG is committed to meeting client requirements and achieving project objectives as a core quality priority. We operate a Total Quality Management (TQM) system that is fully supported by both management and staff. A commitment to quality is expected from all employees, with the "THINK QUALITY" philosophy being encouraged across all aspects of ATMAG's operations.

Recognizing the importance of Quality Assurance in every business area, ATMAG has dedicated itself to establishing an effective Quality Management System. This system is adaptable and can be applied to any project, study, or proposal we undertake. Its primary goal is to ensure that client objectives are met efficiently, minimizing waste, rework, and concessions, thereby creating a cost-effective management system.

To ensure these objectives are consistently met, ATMAG has appointed a Quality Assurance Manager responsible for introducing, documenting, implementing, and maintaining the Quality Management System. The Quality Assurance Manager reports directly to the Managing Director on all quality-related matters, ensuring complete independence in overseeing quality standards.

# QA/QC Policy

## POLICY

**ATMAG's policy is to consistently deliver work that meets or exceeds the quality standards outlined in our Quality Manual. Quality is defined as adhering to the requirements and specifications detailed in the manual across all areas of construction, fabrication, and materials control.**

## SAFETY

ATMAG is recognized for its high standards in safety across both construction and maintenance works. At ATMAG, we share a unified belief that safety is of paramount importance. By aligning with client and international safety standards and committing to incorporating safety into design and the working environment, we ensure that all projects are executed in compliance with best safety practices.

ATMAG recognizes that the effectiveness of any accident prevention and safety policy relies on the cooperation of all employees. Management is committed to taking the necessary steps to encourage participation at all levels in preventing injuries and ensuring the proper use of equipment and safety apparel.

The ATMAG Personnel Department has established a comprehensive health and safety procedure. This department holds the responsibility and authority to coordinate and oversee all aspects of safety, health, and welfare for ATMAG employees. It is also their duty to ensure that the safety policy is rigorously implemented at both subsidiary and project levels, ensuring full understanding and adherence among employees in a well-planned manner.

## Safety Procedures Include

**Accident and Injury Records:** Accurate records of accidents and injuries are maintained uniformly throughout ATMAG to measure performance, maintain control, and assess potential hazards.

**Annual Operating Plans:** Management at all levels formulates annual operating plans that incorporate health and safety objectives, alongside long-term plans aimed at achieving tangible and progressive safety performance across ATMAG.

**Training Programs:** The department is responsible for preparing and implementing training programs for all employees based on safe working methods and relevant statutory requirements. This ensures that employees possess the necessary information, knowledge, and understanding to fulfill their job responsibilities without endangering themselves, others, equipment, or products.

# Our Top Projects

## Hitachi Energy Finished Goods Warehouse

### Dammam, Saudi Arabia

ATMAG successfully delivered the Hitachi Energy finished goods warehouse in the 2nd Industrial Area, Dammam. The scope included high-precision fabrication and construction, ensuring superior quality and adherence to industry standards.

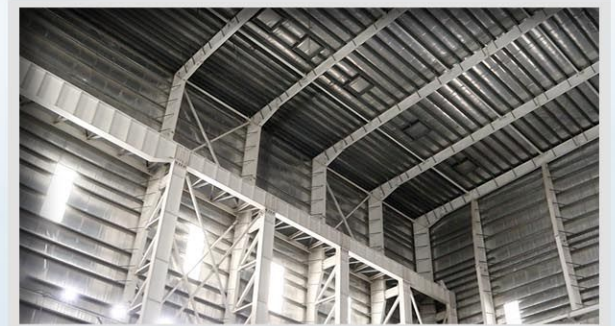

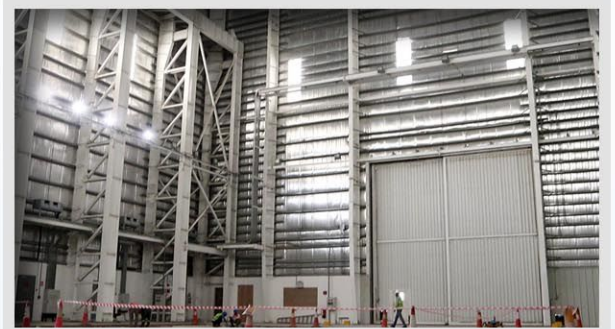

# Our Top Projects

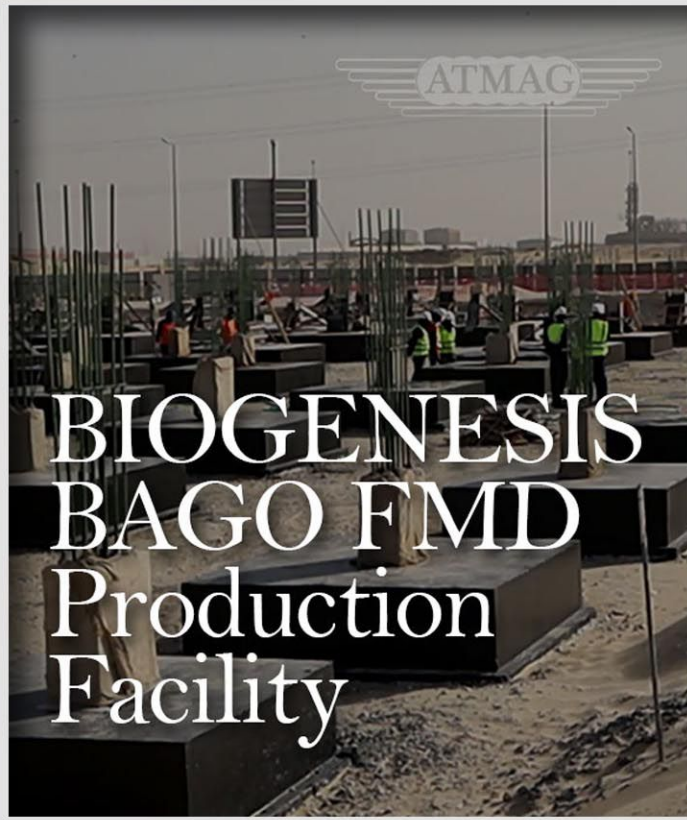

## Dammam, Saudi Arabia

ATMAG successfully executed precision-driven fabrication works for the MHPS GT SHOP project, delivering high-quality steel structures tailored to the project's exacting standards.

# Our Top Projects

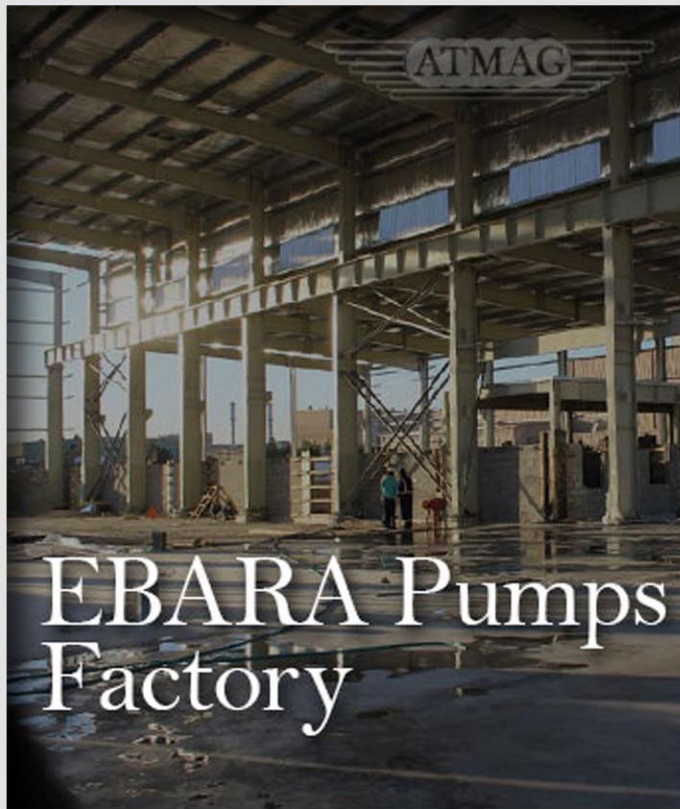

## **Dammam, Saudi Arabia**

ATMAG expertly completed steel structure works and construction for the Biogenesis Bago FMD Production Facility Project, ensuring robust and efficient infrastructure to support advanced production needs.

# Our Top Projects

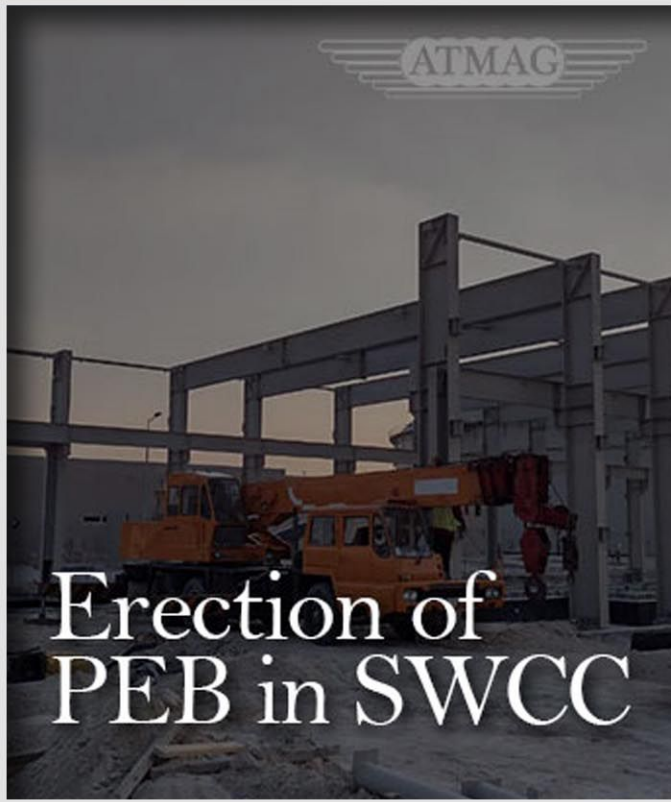

## Jubail, Saudi Arabia

ATMAG successfully delivered the Ebara Pumps Factory project in the 2nd Industrial Area, Dammam. With a project value of SR Eleven Million, the scope included high-precision fabrication and construction, ensuring superior quality and adherence to industry standards.

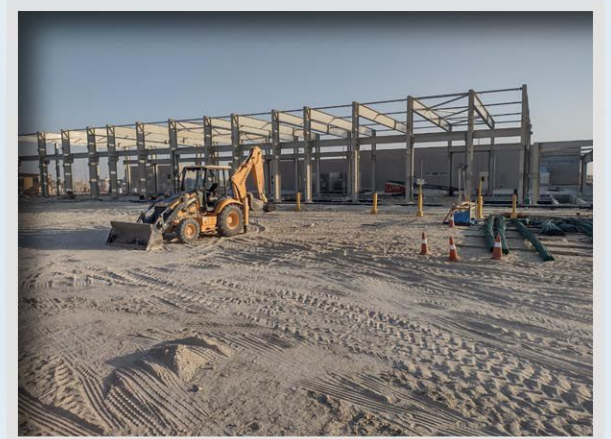

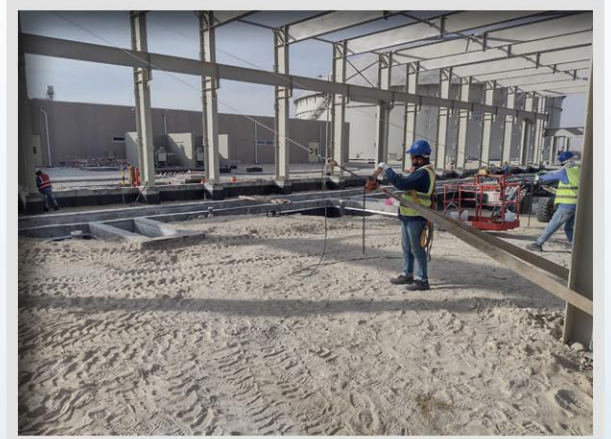

# Our Top Projects

## Jubail, Saudi Arabia

ATMAG successfully executed the erection of Pre-Engineered Buildings (PEB) for the Saline Water Conversion Corporation (SWCC) in Jubail. This project showcased our expertise in precision fabrication and structural erection, ensuring the delivery of robust, high-quality facilities to support critical water conversion operations.

# Our Top Projects

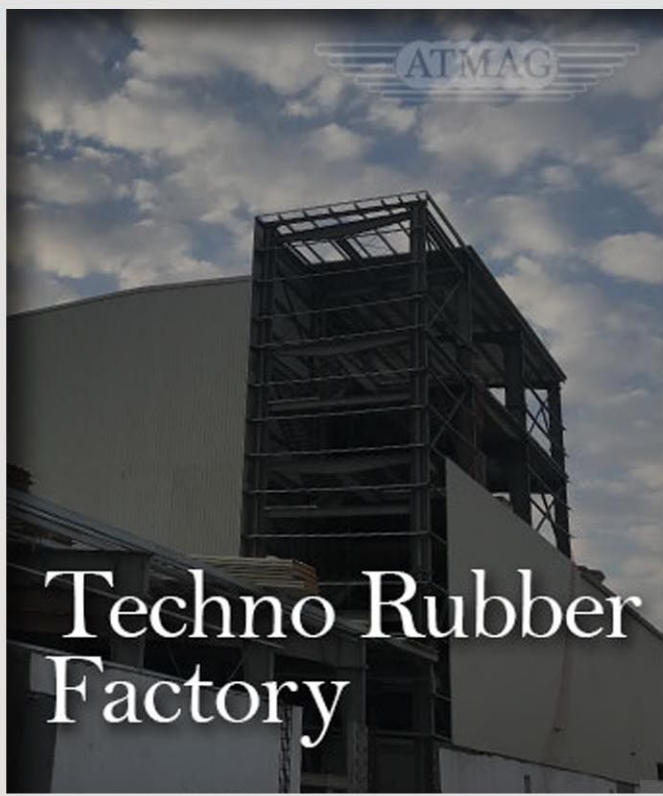

## Jubail, Saudi Arabia

ATMAG successfully executed the erection of Pre-Engineered Buildings (PEB) for the Saline Water Conversion Corporation (SWCC) in Jubail. This project showcased our expertise in precision fabrication and structural erection, ensuring the delivery of robust, high-quality facilities to support critical water conversion operations.

# Our Top Projects

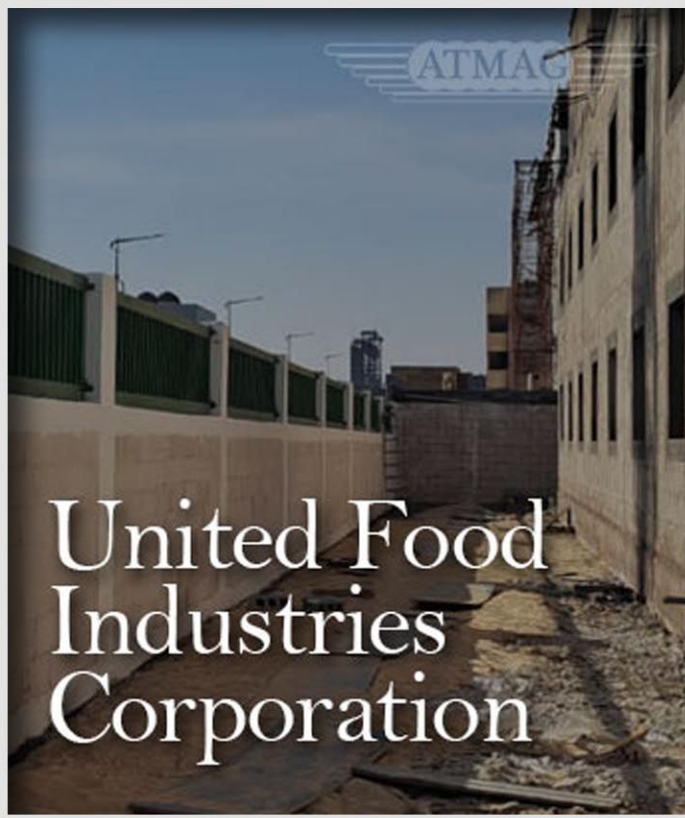

## Dammam, Saudi Arabia

For the Techno Rubber Factory, ATMAG delivered cutting-edge construction services designed to optimize operational efficiency. The project highlighted our capabilities in electromechanical works and facility management, creating a well-maintained infrastructure that supports high-quality production.

# Our Top Projects

## United Food Industries Corporation

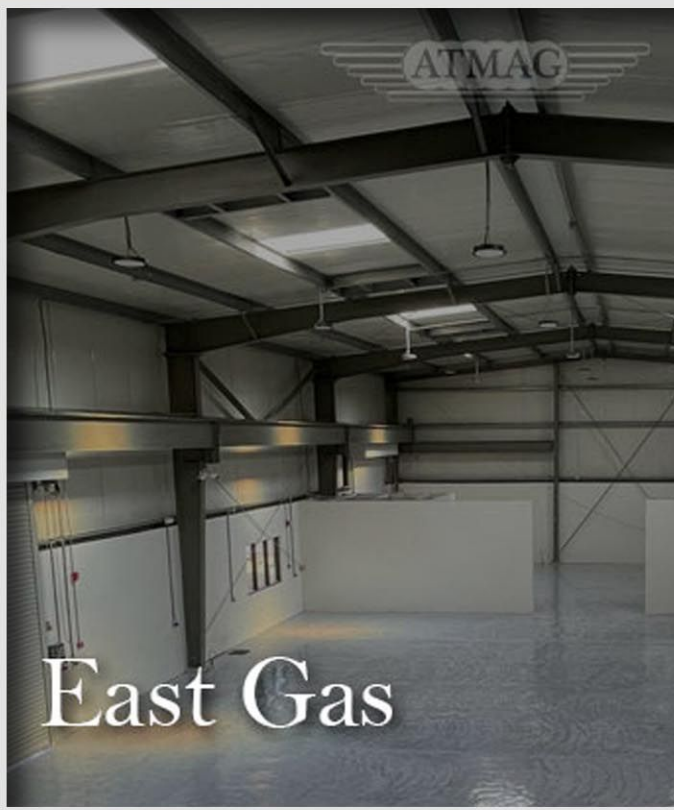

### Dammam, Saudi Arabia

ATMAG's collaboration with United Food Industries Corporation involved delivering state-of-the-art construction and maintenance solutions. By combining innovative engineering practices with strict adherence to timelines, we provided a functional and secure environment tailored to the unique needs of the food production sector.

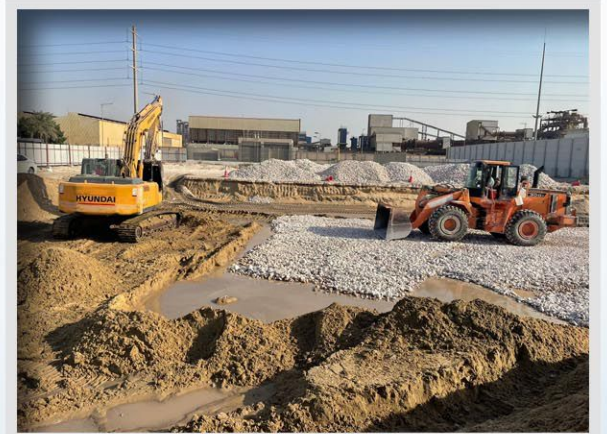

# Our Top Projects

## **Dammam, Saudi Arabia**

ATMAG successfully executed the East Gas Project, delivering high-quality fabrication and construction solutions in Dammam. With a commitment to precision and excellence, the project was completed to meet the industry's stringent standards.
